

EXTERIOR WALL DIMENSIONS

The following illustration shows the nominal wall area dimensions required for installation. The height of the opening is from **exterior ground level** to the base of the opening. This ensures the top function key is no higher than 48" from ground level and complies with Federal ADA requirements. The maximum wall thickness is **11-1/2" (279 mm)**.

Dimensions of Wall Opening (nominal)			
Guidelines	Height	Width	Height (from exterior ground)
ADA	36 - 5/8" (931 mm)	23 - 7/16" (595 mm)	33 - 9/16" (852 mm)
DDA	36 - 5/8" (931 mm)	23 - 7/16" (595 mm)	30 - 9/16" (776 mm)
